Risk engineering services

- Our cyber underwriters and clients are supported by Risk Engineering Services (RES), which provide risk assessments, technical advice, knowledge transfer and client services for cyber insurance products.

Claims

Swiss Re Corporate Solutions believes claims service goes beyond technical expertise and a promise to pay. It means being there when clients need us, being open and honest in our communications, keeping clients informed and partnering with them in the claim resolution strategy. It also means making our coverage positions and reasoning clear so that there are no surprises. We sum it up simply: accessible, responsive and no surprises.

Our team

Our dedicated global team is located around the world with extensive knowledge of local markets, working in close cooperation with clients to provide tailored insurance solutions.

The team comprises professionals with multi-disciplined underwriting expertise and a wealth of industry experience. In addition, our clients have access to the deep expertise and experience of our regional and dedicated claims team.
