

Professional Liability Solutions for the Construction Industry

Swiss Re Corporate Solutions offers tailor-made, industry-specific risk transfer solutions to our corporate clients across the globe. Our Global Construction team offers practice and project-specific professional liability insurance solutions on a **primary, excess or quota share** basis. Our team provides technical underwriting excellence and construction-specific risk engineering and claims services to deliver industry-leading products, services and expertise to our clients.

Target clients

- Medium to Large Architects and Engineering firms
- Medium to Large General Contractors
- Buyers of project-specific covers with construction values in excess of USD 100m or professional fees in excess of USD 20m
- Project owners

Our capacity

Our capacity deployment, backed by the Swiss Re Group's diversified portfolio and strong financial rating, is dependent upon risk quality, and specific risk characteristics, but can reach as high as USD 15m.

USD 15m

Capacity deployment

Our value proposition

Tailored risk transfer solutions for our clients' professional liability needs

World-class knowledge and technical expertise in claims handling, risk engineering and capital management

Highest standard for execution excellence

Best-in-class customer service

Committed to long-term relationships

Our team

Our dedicated team, located in North America, APAC and Europe, has extensive knowledge of the local market and works closely with clients to provide tailored, industry-specific insurance solutions. Our team is made up of professionals with combined expertise of over 100 years of industry experience.

Our clients have access to claim handlers with world-class knowledge and technical expertise in our regionally-based and dedicated claims teams.

Our Construction team is global in reach, and local in touch. We have professionals in North America, APAC and Europe who know the local markets and can work with clients to tailor industry-specific insurance solutions.

- **We comprise** professionals with significant construction-specific knowledge and industry expertise, including experienced engineers, lawyers and tenured claim experts.
- **We appreciate** that the construction industry survives on relationships, and this is a consideration that is kept front of mind when managing claims to avoid any strain on these commercial relationships.
- **We value** privacy, especially in circumstances where we might insure more than one party involved in a claim. We have strict information barriers in place to ensure restricted access at all times.

Our clients can reap the benefits of the breadth of our expertise and the depth of our global and local experience. This includes our Underwriters, our Claims professionals and our Risk Engineers who are well-seasoned in the construction field and are ready and able to provide support and insight. This includes Lessons Learned from years of experience in boardrooms, in the field and in the courtroom.

Our team works closely with our insureds, experts and, where relevant, lawyers and co-insurers to obtain the best outcomes possible in conjunction with our customers. We have successfully navigated some of the industry's largest PI and Project Specific claims.

Our team includes experienced construction risk engineers able to support our insureds on a global basis

Provide risk assessment and mitigation strategies; with a broad and holistic risk management perspective.

Provide active project risk monitoring and risk reduction recommendations.

Apply lessons learned from other regions and past claims.
