# PULSE portal

Online risk management at your fingertips

Our PULSE technology includes an online portal that allows you and your broker to monitor and manage your insurance program from one secure place.

One comprehensive portal, multiple insights at your fingertips.

It puts you in control and gives you easy access to real-time policy, claim and risk improvement information. You can review your policy, submit loss notifications, monitor claims, or track progress of a risk improvement. And with ongoing enhancements, you can keep your finger on the **PULSE** of your program whenever you need to.

**The PULSE portal** is available to Swiss Re Corporate Solutions' customers and their brokers. If you're interested to learn more, watch our demo video [here](#).

Manage all aspects of your insurance program quickly and seamlessly from one secure place.
