

Virtual Captive

A multi-year insurance agreement between you and Swiss Re Corporate Solutions that simplifies the setup of a captive approach for risk financing.

Who is it for?

A corporation that has decided that a captive would be the right answer to their risk transfer needs, but is:

- Evaluating alternatives to setting up a captive
- Seeking to avoid the time needed, as well as cost and complexities
- Considering later exit options
- Bridging time until a captive is established

How does it work?

- Multi-year: the risk financing happens over time, same as with a traditional captive
- Premium contribution to the Virtual Captive implicitly finances a larger part of the risk over time
- A "low claims bonus" to the client becomes due at the end of the period
- If losses exceed original premium ("virtual capital"), an "additional premium" can become due

Consider a few advantages:

- No set-up costs and efforts
- No regulatory approvals or reporting
- No expenses for captive management
- Speedy implementation
- Swiss Re Group financial strength

A Virtual Captive structure emulates the mechanics of a captive, on our balance sheet.

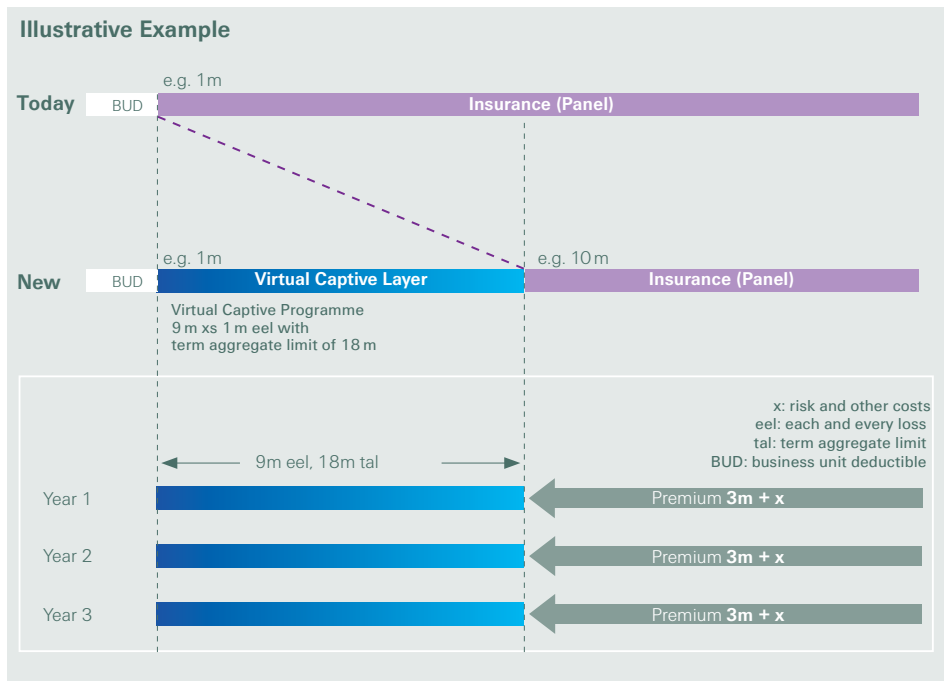

Is it right for you? Let's see...

- Are you prepared to self-finance a larger part of your insurance coverage?
- Have you assessed your self-financing risk appetite for the next 3 to 5 years?
- Have you evaluated the optimal retention on the relevant lines of business within the current insurance market?
- Have you consulted with Finance/Accounting/Tax to fully align?

If you answered yes, it is time to contact Swiss Re Corporate Solutions.

"A **Virtual Captive** could be the right choice for a company that already sees a captive as an optimal solution for their insurance needs."

Types of risks are limited to those within our license, capabilities and risk appetite.

Swiss Re Corporate Solutions offers the above products through companies that are allowed to operate in the relevant type of financial products in individual jurisdiction including but not limited to insurance and reinsurance. Availability of products varies by jurisdiction. This communication is not intended as a solicitation to purchase (re)insurance or non-insurance products.
