

Risk management solutions for the renewable energy sector

Swiss Re Corporate Solutions provides tailor-made, industry-specific risk management solutions to corporate clients across the globe. The solutions include a wide range of risk transfer and financing products for risks associated with the construction and operation of renewable energy plants. Our offerings range from high-capacity property & casualty insurance, and complex on- and off-shore construction project covers to weather-related volume and electricity price risk coverages.

Our business

As renewable energy grows in strategic importance for power companies, and as investment in renewable energy assets expands, risk considerations are clearly moving higher up the agenda among investors and operators of renewable energy projects. The offerings of Swiss Re Corporate Solutions can be tailored to effectively protect against various types of risks including:

- Project-specific insurance solutions associated with the construction and operation of the plants such as:
 - Construction, erection and builder's all risk
 - Delay in start-up, advance loss of profit
 - Business interruption
 - Contingent business interruption
 - 3rd party liability
 - Construction plant & equipment
 - Existing assets
- Property & Casualty exposure of plants in operation
- Weather-related volume exposures
- Electricity price volatility combined with unplanned power outages

Our capacity

- We offer among the highest capacity available in the marketplace, based upon the Swiss Re Group's diversified portfolio and strong financial rating
- We can offer capacity on a net basis, so our commitment is not dependent on third-party participation

Our team

The team is comprised of professionals with technical, financial and underwriting expertise. Our experts are based in Europe, Asia, Australia, Latin and North America, ensuring close and constant contact with customers. We have strong industry knowledge to understand our customers' specific and complex needs.
